Summary

Software engineer with five years of experience building server-side services for mobile and web clients. Owns systems from design to production.

Experience

Senior Software Engineer, Fictional Cloud, 2023 - Present
Designed HTTP endpoints for mobile clients with Spring Boot and Java. Modelled PostgreSQL tables and tuned slow queries. Ran the services on Kubernetes on AWS with automated deployments and monitoring.

Software Engineer, Sample Platforms, 2021 - 2023
Wrote server-side services in Java that exchange JSON with client applications, and added integration tests for every service.

Education

BSc Computer Engineering, Example University, 2016 - 2020

Skills

Java, Spring Boot, PostgreSQL, Kubernetes, AWS, Git, Maven

Languages

English, Turkish
