Summary

Backend developer with about five years of experience designing REST APIs and relational databases for small teams. Comfortable owning a service from design to deployment.

Experience

Backend Developer, Fictional Labs, 2024 - Present
Built and operated REST APIs in Python and FastAPI. Designed PostgreSQL schemas and wrote SQL reports. Added automated tests and Docker based deployments.

Software Developer, Sample Software, 2023 - 2024
Maintained internal web services and improved slow SQL queries.

Junior Developer, Demo Systems, 2022 - 2023
Implemented small features in a Python web application and fixed bugs.

Education

BSc Computer Engineering, Example University, 2017 - 2021

Skills

Python, FastAPI, SQL, PostgreSQL, Docker, Git, REST API design, unit testing

Languages

English, Turkish
